Registration Fee £50.00

Fee covers Pre-Prep and Preparatory School registration.

Deposit £600

This will be repaid without interest by means of a credit against the final account from the School after the pupil leaves. Please also refer to the School's Terms and Conditions regarding deposit returns.

Fees and Conditions

Our fee schedule is set out above. The fees for each term are payable in advance, either on or before the first day of term. Alternatively, a monthly payment scheme is available, details of which can be provided by the Registrar. Interest is charged on late payment. If fees remain overdue, we may refuse to accept your child to the School. Any such action will not prejudice our right to payment and you will remain liable for all sums due to us. However the fees are paid, the contractual liability remains with the signatories of the Acceptance form.

Illness and Insurance

Personal Accident insurance (including Dental) is compulsory and included within the School fees. Personal Effects insurance is optional and an optional school fee insurance scheme is available. No claim can be made for the remission of fees on account of a child's unavoidable absence through illness unless covered by the School Fees Refund Scheme. Another optional insurance scheme is with AXA PPP. This provides against most of the costs of specialists' fees, operations and hospital maintenance charges, which might be incurred through occasional medical attention being sought privately. Details of these schemes can be found on the School website and further information provided by School Finance.

The School is insured comprehensively in terms of public liability and for all activities supervised by members of staff. The School takes no responsibility for personal valuables brought into School.
